Big Dairymen's Convention

Alberta's Dairymen Plan Convention February 1-2-3

Preparations are under way for the 21st Annual Convention of the Alberta Dairymen's Association which is to be held in Calgary on February 1st, 2nd, and 3rd. It is expected that some five hundred dairymen will be in attendance including delegates from all parts of the province and prominent representatives of the industry from other sections of the Dominion.

For the first time in Canada, a Milk and Cream Grading Competition will be held in connection with the convention and other features of interest include a Butter Judging Contest and a Boy's and Girls' Cattle Judging Competition.

It is announced that the visitors will include Dr. J. A. Ruddick, Dominion Dairy Commissioner; D. A. Gibson, Dairy Commissioner for Manitoba; P. E. Reed, Dairy Commissioner for Saskatchewan; Henry Rive, Dairy Commissioner for British Columbia; C. P. Marker, Dairy Commissioner for Alberta; J. A. Caulder of Regina, President of the National Dairy Council; Jos. Burgess of the Federal Department of Agriculture; Pro J. F. Sackville, University of Alberta; Miss Helen Campbell of the Dominion Department of Agriculture; Hon. Geo. Headley, Minister of Agriculture for Alberta; H. A. Craig, Deputy Minister of Agriculture and S. G. Carlyle, Livestock Commissioner for Alberta.

Analyze Your Investments

The necessity for a periodical analysis of your investments has long been recognized by investors, and we suggest that the holiday season is a good time to do this. We look for continued strength in the bond market, coupled with a corresponding decline in interest rates.

Most of the good seven per cent stocks have gone to a premium, just as the six per cent bonds of some of our leading industries have done. Corporations that issued preferred stocks in a period of dear money set their call or redemption prices low enough to safeguard themselves against having a pay a high dividend during a period of cheap money, when six or even five per cent is considered a good return. A few redemptions have already been made, and the time is evidently at hand when there may be more. This clearly illustrates that prepared stocks are being regarded more as a debt to be redeemed rather than being a share in the ownership of the company.

The advisability of having your investments analysed regularly is, therefore, evident, as changing conditions such as we have referred to will materially alter the investment position of many securities which investors are holding.

(We are indebted to the above valuable information to Messrs. J. P. Clark & Co., of Vancouver and Victoria, B.C., for which we tender our cordial thanks).

As a result of the Dominion retiring the Victory issue, which fell due on December 1st, partly in cash, the balance in short term preferred notes, a further impetus has been felt in the demand for high-grade bonds. The 4 1/2% issues in the Dominion are now at a premium of over 2%.

Could Learn From Canada

British Newspaper Man Writes Of Class Distinction In England

Mr. Carey Lord, one of the British newspapermen's party, who toured Canada last summer, has recorded his impressions in a series of articles in the Advertiser and Times, of Clitheroe, Lancashire. In one article he says:

"There are few or no class distinctions in Canada. At St. John I heard one call another 'Tom' in a most familiar way, and Tom who laughingly answered was a member of Parliament, and the man who addressed him a menial in the hotel below the rank of waiter. At another city a gentleman on my right at dinner told me he could not live in England again because it still maintained its class distinctions. The gentleman on my left had only just told me my neighbor on the right was reputed to be worth twenty million dollars. Halve the 'reputed' figure and he was yet a millionaire twice over in sterling and he had only to return to England and give an odd hundred thousand to a hospital and he could command a peerage—a passport to the highest society. This is an object lesson to Britain, where traditions die hard. If the imaginary somebodies in our country could forget their imaginary class superiority they would do more to check the present-day tendency toward Bolshevism than all the anti-Bolshevik agencies they have already set up or are ever likely to 'set up.'"

Winnipeg Newspaper Union

A Distinguished Frock

The charming frock pictured here is a smart and extremely graceful style. The flared drapery is sewn at each side of the skirt and the long dart-fitted sleeves are shown with and without cuffs. No. 1690 is in sizes 34, 36, 38, 40 and 42 inches bust. View A, size 36, requires 2 yards 39-inch plain, and 2 1/4 yards figured material. View B, size 36, requires 2 yards 39-inch figured, and 2 1/4 yards dark material. Price, 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Finds Cause Of Disease

Discovery of the bacteria which is believed to cause "moon blindness" in horses, and which results in the death of many valuable horses, is announced by Dr. Edward C. Rosenow, of the Mayo Foundation, Rochester, Minn.

If a woman is jealous of her husband it usually keeps her so busy that she hasn't much time for anything else.

LADIES' SILK HOSIERY

FREE!

Another startling innovation by Canada's greatest bargain house. We will give away free of charge 50,000 pairs of ladies' pure silk hosiery to our mail order customers. This unique offer is open to all between now and April 1st. With every order sent us amounting to \$5.00 we enclose you, free, a pair of high grade silk hose worth \$1.25, (any size or color). If your order amounts to say \$15.00, we send you three pairs free, and so on. We are not issuing a Mid-Winter catalogue, and are giving our friends the benefit of this great saving. We urge you to compare the low prices listed in our Manufacturer's Outlet Sale Catalogue, with the higher prices offered you, as January buying inducements by other mail order houses. Check over our last bargain catalogue at once, and mail in your orders early. The Savings are tremendous, and remember you get silk hosiery now absolutely free with every order over \$5.00. We will be pleased to mail you our latest catalogue free on request. Simply write your name and address on the margin of this Ad.

Recipes For This Week

(By Betty Barclay)

JUNKET PLUM PUDDING

1 pkg. vanilla junket.
1 pint milk.
Speck each of nutmeg, cloves and cinnamon.
1/2 cup grape-nuts.
1/4 cup raisins.
1/4 cup chopped dates.

Put grape-nuts, raisins and dates in the bottom of the dessert glasses. Warm the milk to lukewarm — not hot. Remove from the stove, add spices and junket powder and stir for one minute to dissolve. Pour at once over the fruit and grape-nuts in the glasses. Let stand in a warm room until firm — about 20 minutes, then put in a cool place until serving time.

HOLIDAY SALADS

Oranges, Bananas and Marshmallows
Peel and slice oranges; cut slices into segments. Mix with bananas peeled and cut into dice and marshmallows cut into quarters. Put into serving dish and sprinkle with sugar.

Oranges and Cocoanut

Peel and slice oranges; cut slices into segments. Put into serving dish and sprinkle with sugar and grated cocoanut.

Drives Asthma Before It. The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relief-giving remedy shows how actual and positive is the success it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

A submarine magnet, for lifting masses of iron and steel plate from wreckage, has been designed in England.

One school child out of every five in the United States is underweight.

LESSON No. 17

Question: Why is emulsified cod-liver oil so efficient a food for young children?

Answer: Rickets or weak bones are evidences of lime-deficiency. Emulsified vitamin-rich cod-liver oil helps Nature supply this deficiency.

Pure, pleasantly flavored, nothing quite surpasses

SUNDAY SCHOOL LESSON

JANUARY 15

JESUS AND SINNERS

Golden Text: "I came not to call the righteous, but sinners."—Mark 2:17.

Lesson: Mark 2:1-17.
Devotional Reading: Psalm 32: 1, 2, 5-7, 10, 11.

Explanations and Comments

I. An Instance Of Persevering Truth, verses 3, 4.—When Jesus returned to Capernaum and it became known that he was in the house, so great a crowd gathered that there was not room for more even about the door. Four men who had brought a palsied friend to Jesus, finding that they could not come near him, ascended with their burden to the roof. They made an opening through the roof and let the man down before the Great Physician.

If it was one of the better homes in Capernaum, there was a central courtyard in which the crowd gathered, and Jesus spoke to them from the gallery, or veranda, which extended around the wall of the house. In that case, it was the tiles of the roof over the veranda which were removed. If it was a poorer house, there was only one room, with an outside stairway leading to the roof, where in warm weather the family slept. The roof could be easily opened, or dug through, for it was almost flat, sloping only enough to let the rain run off, and was composed of mortar, tar, ashes, and sand rolled until hard. Sometimes the joists were covered with stone slabs, and if this was the case in Peter's home, the men had not only to dig through the earth but to pry up the slabs.

The bed was but a mattress, padded quilt, or blanket, and as the roof was low the four men could hold on to the corners and by stooping could let down the sick man without the aid of ropes (as are represented in most pictures of the event). Probably in bringing the man the bearers carried him, and his "bed" upon a board, or stretcher.

The four men were persevering and they were inventive. Most men would have been discouraged by the crowd and satisfied that they had done all that could be done, would have carried the sick man home again. Could they be expected to do the impossible?

"If you find that one door is blocked, try another; and if no ordinary way is open, make a new and extraordinary way. Tear up the roof, make a new departure. Love is inventive, and enthusiasm is persistent." — Samuel Chadwick.

No Increase In Ontario Gasoline Tax

At the conclusion of a lengthy cabinet meeting held in Toronto recently, Hon. G. Howard Ferguson, Ontario premier, definitely announced that there is to be no increase in the gasoline tax during the year of 1928. The increase was bound to come, said Mr. Ferguson, but would not come during the coming year, because current road expenditures were not being met out of current revenue but out of the capital fund.

A theatre in London, England, will try a novel experiment by arranging for parking 5,000 automobiles of patrons.

It isn't what your grandfather was but what you are, that really counts.

For frostbite use Minard's Liniment.

Has Already Netted Million

British Convict Ship On Exhibition In U.S. Still Draws Crowds

More than \$1,000,000 has been made from the old British convict ship Success, which was on exhibition in New York in 1921 and 1923, and since then has been on the American waterfront and rivers. Captain David Smith, owner of the vessel, said when he sailed for England in the White Star liner Cederic, that his property would probably keep drawing crowds until it rotted away. During the years it has been in the United States more than 20,000,000 people have paid to see it and the torture instruments it still carries. The decks where, for forty-seven years following its launch in 1790, convicts were punished, still carry the instruments now considered too terrible to use. The Success is in Toledo now.

Every careful and observant mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

Man at the Cash Register—"Listen, I wouldn't cash a check for my own brother!"

Stranger—"Well, of course you know your family better than I do."

Powerful Medicine. — The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

One great drawback to the popularity of the inevitable is its refusal to make concessions.

Be loving and you will never want for love.

The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demone, Pleasant River, N.S., writes:—"Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to go about, and could not do my housework."

"I would get dizzy spells and would have to go and lie down."

"I could not sleep at night as the least little noise would wake me up."

"I tried different kinds of medicine, but they seemed to do me no good."

"A friend recommended

MILBURN'S HEART NERVE PILLS

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore..

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XVI.—Continued.

"Go easy on the Finns, Captain," said Jack, laughing. "I am about to marry one."

Mr. Blackwood gave Helmi a long insolent stare, before which her eyes fell. Were all magistrates cross old men? Were they angry at her because she came from another country?

"You'll need to keep her in her place, young man; she has the eyes of a broncho. They are a high-tempered, murderous lot, the Finns, fighting, stabbing, shooting."

"We're in a hurry, Captain," said Jack, still unimpressed. "So if you will get along with the business now we will be very glad. I have the license here."

The old man put on a pair of smeared glasses and began to hunt through the incredible turmoil on his table, looking for the necessary papers, swearing as he drew out each handful that failed to reveal the proper forms. Someone had been interfering; he never could leave anything and find it again; they had been here yesterday or the day before. If people would only leave his things alone! he would not a trap among his papers, and he hoped it would cut their damned fingers off.

Mr. Blackwood went to the cupboard, took out a teacup, poured himself a drink from a brown bottle, and made another attempt. After a second drink he found what he wanted.

Helmi hung to Jack's arm, terrified. "I don't like it," she said, "bad luck it will bring. It is so naughty—dirty and bad. He is drunken, come away—we will go to another one—I wish we could get married nice way."

TO WOMEN OF MIDDLE AGE

Mrs. Wilson's Experience a Guide to Women Passing through the Change of Life

Hamilton, Ontario.—"I have taken several bottles of Lydia E. Pinkham's Vegetable Compound and I can not speak too highly of it as I wasnt the Change of Life and was all run-down and had no appetite. I was very weak and sick, and the pains in my back were so bad I could hardly move. I got very sad at times and thought I had not a friend on earth. I did not care if I lived or died. I was very nervous, too, and did not go out very much. A friend advised me to try a bottle of Lydia E. Pinkham's Vegetable Compound, so I did. I am a farmer's wife, and always worked hard until lately, and was in bed for two months. I began to feel like a new woman after the first bottle and I recommend it with great success, also Lydia E. Pinkham's Liver Pills. I am willing to answer letters from women asking about your medicines, as I cannot speak too highly of them."—Mrs. EMMA WILSON, 471 Wilson Street, Hamilton, Ontario.

Sold by druggists everywhere.

W. N. U. 1715

ing what he wanted, he went to the wall, where, on a huge spike, pages of newspapers were impaled. He searched through them for a moment and then returned to Jack and placed in his hand a page of a Winnipeg paper. Jack took it, wondering.

"Read this," said the older man, triumphantly, "and then tell me if you still want to go on. We keep a file of police happenings and find them very interesting."

Helmi's face looked at him from the page.

"Arrested in a Chinese den a year ago—escaped yesterday from the Girls' Friendly Home," Jack read the words aloud before he was able to grasp their meaning. He read every word of it, though the words seemed to be made of fire that burned him. Even the Magistrate was sorry for him.

"It's a damn lie!" broke from his lips. "It's a horrible mistake! See, it's the same name—that's all. If it were my Helmi wouldn't she have changed her name when she came here? She wouldn't be fool enough to go on under the same name."

Jack knew that Helmi did not talk of her life in Winnipeg, though it came out one day that she had been there a year; and the date of the escape recorded here corresponded with the time she came to Eagle Mines.

Jack's throat was dry and his soul sick within him, but to believe that of Helmi! He couldn't—he wouldn't. There were no dark chapters in the boy's own life. He had lived the clean, active life of a decent fun-loving youth. He knew of the evils in the world, having worked with gangs of men who spoke of their carousals without shame, but he had always been repelled by the coarseness, the vulgarity of it all. It couldn't be—Helmi was as sweet and pure as a prairie flower. If she was arrested it was some rotten mistake. No, he would not turn her down.

"Is it her picture, do you think?" asked the magistrate, coolly. "I am not sure," said Jack, "it's a young girl of Nordic type, dressed as they all dress. I never saw my girl wear these clothes."

Jack read the words again, and then handed the paper back. He had taken his resolve. "Now, you've done your duty," he said, trying to speak calmly, "I am going to marry Helmi Milander, and if you ever show this paper to anyone and try to injure my wife, I will come back and deal with you—old man though you are. Now, get your book, or whatever you go by, and come outside; the atmosphere of this house is hardly right for a wedding."

Jack had never felt such a need for fresh air—another minute in this foul place would smother him.

Outside, with the afternoon sun shining on them, and a wind from the pass blowing the leaves of paper the magistrate held in his hand, they made their vows according to the bald rites of civil marriage. Jack could not afterwards remember what he said. He only knew he had a great desire to take Helmi in his arms and protect her from every evil thing in the world.

When they began the drive home the sun had gone behind the mountains. As the early chill of evening came down upon them Helmi was silent and distressed. She knew there was something wrong. The magistrate was her enemy like the other one. Why were they all so cross to her? She determined to ask Jack.

"Why did he not want to marry me?" she asked, when they had reached the top of the hill and stopped to look back at the little town, which would soon be blotted out by the purpling dusk.

(To Be Continued.)

Galileo dropped a half pound weight and a 100 pound cannon ball from the Leaning Tower of Pisa, and demonstrated to an incredulous world that the two would fall at the same speed.

Ski-ers.

After strenuous hill climbing and jumping, a rub down with Minard's prevents stiffness.

Will Keep Its Place

No Danger Of White Race Being Dominated By Other Races

Dr. A. Herdlicka, specialist in physical anthropology at National Museum in Washington, believes the white race should continue to hold its own with all other races.

"If some cataclysm of general epidemic should befall it," he said, "it would go the way of all races so afflicted and sink to a secondary position. But unless this should occur, the white race, despite the howls of those who predict that the rising tide of color will sweep all before it, will stand well to the fore."

The great advance of evolution in the future, Dr. Herdlicka asserted, will be in mentality.

GIVE CONFIDENCE TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets In the Home

A simple and safe remedy for the common ills of babyhood and childhood should be kept in every home where there is either a baby or a young child. Often it is necessary to give the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies.

Baby's Own Tablets are a mild but thorough laxative that act without griping and they are absolutely guaranteed free from opiates or other harmful drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Novel Fire Alarms

Loud Speakers Have Been Installed In Streets Of Edinburgh

Novel loud speaker fire alarms have been installed in the streets of Edinburgh.

Any one wishing to report a fire breaks the glass and immediately the door opens disclosing two apertures. Above one is painted the words "Wait, Fireman will speak" and above the other, "Reply Here." The breaking of the glass also rings an alarm bell in a fire station duty room.

Although the fireman replies through an ordinary telephone transmitter his voice can be heard 12 feet from the alarm box. When the fireman answers the persons reporting the fire gives the exact location.

Police and ambulance calls also are sendable through the fire-boxes. One advantage of the new system, it is said, is that it reduces temptation to send in false alarms.

Costly Binding For Books

London Firm Expending \$25,000 On Fifteen Volumes

A London bookbinding firm is expending \$25,000 in the design and construction of covers for 15 volumes of "The Lives and Times of the Popes," to the order of Thomas Madigan, of New York.

Rubies, sapphires, ivory, silk, scarlet leather, morocco and heavy gilding all go into the ornamentation of each volume.

A year's steady labor has produced only four volumes, of which only one has been forwarded to New York. The volumes include 50 of the original Papal bulls.

A Worthless Souvenir

Sir Robert Horne tells a good story of an author who was attending the first performance of his new play. It was not a success. In fact, to put it plainly, it was a dismal failure—and it deserved to be.

At the end of the last act a lady seated immediately behind the unhappy playwright tapped him on the shoulder and, placing something in his hand, remarked:

"I recognized you when you came in and cut off a lock of your hair. You may have it back!"

New money in use in Palestine bears inscriptions in English, Arabic and Hebrew. There are no gold coins; the pound is a paper note, with only silver and copper coins.

Nearly every big man imagines that he is a born fighter until some insignificant little chap comes along and bluffs him.

Treat Colds 2 Ways

With One Treatment RUBBED on throat and chest, Vicks does two things at once:

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

Every human being whom we approach should be the better for us. —William Ellery Channing.

Each of us is bound to make the small circle in which he lives better and happier; each of us is bound to see that out of that small circle the widest good may flow. —Arthur Penrhyn Stanley.

Minard's Liniment for rheumatism.

Nothing but nude peanuts may be sold in Central Park by order of Park Commissioner Herrick, who is trying to keep the walks there clean. The reason? "Shucks," explained the Commissioner.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

Revenue Collector—"What's this \$400 item?"

Citizen—"That's the money I saved to pay my taxes with."

Revenue Collector—"Well, you'll have to pay taxes on that, too."

The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or constipation, or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

! LUMBER SPECIAL!

I am booking orders for 100,000 board feet of new-cut lumber for delivery
in February and March, at

\$17.50: per thousand: \$17.50

for mill run, rough, at mill. This price for 14 ft. lengths and shorter.
Planing to your order extra, at an average of \$2.50 to \$4.50 per M for 1x6
and larger sizes. Offer limited to 100,000 feet. First come, First served.
Quantity limited to 20,000 feet in one order.

Free stable and bunk house will be provided at mill. Bring your own bedding and horse feed.
Good sleigh road to mill. Mill located 3 miles north and 27 miles west of Didsbury. To get
there, hit the town line between Townships 31 and 32, anywhere, and go straight west.

Leave your quantity order with Steven's Service shop, or with manager of the Royal Bank,
Didsbury, or mail direct to me at Bergen, Alta. All orders must be accompanied by a deposit
of 10 per cent. of price. Deposit to be held in the Royal Bank. All lumber strictly cash.

Hauling can be arranged for at reasonable rates. Probably never again will you be able to
buy good lumber on this basis. Plan now, your building program for 1928. A good building
is an asset that endures and makes life worth while. This offer will be quickly exhausted. Place
YOUR ORDER, NOW—TODAY.

High Standards Reflec- ted in Canadian Finance

Financial Review—Canadian Markets
Close on Most Active Year in
History

Weekly summary of the Canadian
financial situation received from
Messrs. Greenshields & Company:

The financial markets of Canada
closed today the most active year in
their history. The year was notable
not only for the exceptionally heavy
volume of business, but for price
movements extending through the
entire list of security investments
that were spectacular in the extreme.
Total transactions on the Montreal
Stock Exchange approximated ten
million shares, which compares with
the previous high record of 6,751,570
shares in 1926.

The Greenshields price index, based
on fifteen standard stocks with allow-
ance for share splitting, at the clos-
ing of business today stood at 333, a
compared with 233 at the end of 1926.
The advance of 100 points has not
been equalled in the 19 years' period
in which these records have been
kept. The movement in prices was
spectacular, and at the same time it
was unusually well sustained. There
have been few years so free from
sharp reversals in the general trend.

Money for investment was extreme-
ly plentiful throughout the year, and
at the same time very definite prog-
ress was made in virtually all line
of Canadian business. This combina-
tion of circumstances quite naturally
increased the feeling of confidence in
Canadian development that had been
slowly maturing in the years imme-
diately preceding, and accounted very
largely for an insistent demand for
all classes of Canadian investment
securities. A decline of approxi-
mately one-half of one per cent. in the
income return from the Dominion's
own obligations could not fail to ex-
ert a very important influence on the
entire market structure. For exam-
ple, it made possible an outstanding
Canadian company like the Canadian
Pacific Railway resuming its practice
of financing part of its requirements
by stock issues rather than bonds.
Bell Telephone and Shawinigan Water
& Power were two other large com-
panies which in the year raised sub-
stantial amounts of new capital
through stock issues, and the demand
for common stock equities fostered
by easy money and growing confi-

dence in business conditions continued
to broaden throughout the year. It
would be unreasonable to expect spec-
tacular price movements of such a
general character as characterized the
1927 market to be repeated in 1928.
The advance of 100 points in the
Greenshields index representing aver-
age prices of a number of representa-
tive stocks, approximately equalled
the total advance of the four pre-
ceding years. Advances of 100 point
were relatively common in 1927, and
there were also advances of more than
200 points. If a repetition of such
striking fluctuations is not to be look-
ed for on so broad a scale, it may be
admitted that in the current state of
Canadian development, with new en-
terprises of great magnitude under-
way and in prospect, the coming year
will none the less hold out many op-
portunities of profitable investment.

Business expansion was not limited
by what occurred in 1927. On the
contrary, during the year the ground
work was being laid for a greatly in-
creased volume of trade. This was
particularly the case in the mining
industry, which in actual production
exceeded the high record establish-
ed in 1926 by only a small margin. This
margin should be very materially en-
larged in the coming year, with a new
field like the copper-gold areas of
Northern Quebec contributing to the
total, and with other developments in
similar fields of Ontario, Manitoba
and British Columbia coming into
play.

Similarly in electric power and
pulp and paper there were new de-
velopments in the year involving
heavy expenditures of capital from
which benefit will only begin to be
derived in 1928. Possibly one lesson
learned by investors in Canadian com-
mon stocks in 1927 is that it does not
pay to attempt to trade in and out of
equities representative of situations
that hold out good prospects of favor-
able development as Canada continues
to grow. This applies to those who
view the market from the investment
rather than the speculative stand-
point. Sharply rising prices this year
induced many investors to sell securi-
ties that had lain in their strong-
boxes for years, only for these in-
vestors to see these same stocks at
very much higher prices later on.
The extraordinary appreciation that
has occurred in the past year in stocks
of leading Canadian corporations like
C.P.R., Ogilvie, Montreal & Shawin-
igan Power, Canada Cement, Brazilian
Traction, etc., has accrued very much
more to the advantage of the outright
investors content with a moderate re-
turn on his capital and satisfied as to
the future of strong Canadian enter-
prises than to the advantage of the
investor who has adopted a trading
attitude.

W. H. Chamberlain has taken
over the watch and jewelry repair-
ing conducted recently by W. C.
Liphardt, and will be glad to re-
ceive your orders.

The Alberta Wheat Pool elevators
have handled over 15 million bushels
of the 1927 crop to date. Local pool
elevators now number 157, with three
new ones being built on the Clan
Donald branch line running from
Lloydminster.

In clean, bright Aluminum

Canada In 1927

We are now well launched into the new year of 1928, and it is possible to examine the completed story of Canada's progress and development in the year now ended.

It is the universally expressed opinion that the year which witnessed the Dominion's diamond jubilee was one of the best years in Canada's history. It was a year unmarred by any great national disasters or epidemics; it was a year of fairly general prosperity; it was a year of national growth and of development along lines making for national unity and a better conception of Canada's future possibilities.

The Dominion is more highly regarded by our own people, and has attained to a higher place in the eyes of the whole world. The new status accorded the Dominions within the Empire has been productive of greater national pride and confidence which finds expression in a still greater determination to build stronger and better in the years to come. Not least among the factors adding to Canada's international position was the election of the Dominion to a seat on the Council of the League of Nations and the appointment of a Canadian Minister at Washington, and an American Minister at Ottawa.

Western Canada can justly claim credit for many of the things which have resulted in the improved position of the country as a whole. During the past five years it is conservatively estimated that the farmers of Western Canada have sold farm produce to a value of \$2,000,000,000 at country points, and with the return of prosperity to the West, there has been a vast improvement in business everywhere. In a New Year's message, Sir Henry Drayton declared that the gain of the year must be largely credited to agriculture and the extension of Canadian mining, and pulp, and paper industries. Western people have long contended that a successful and prosperous agriculture meant prosperity for all. The past year has demonstrated this.

One of the most noteworthy developments of the year has been the rapid increase of wealth produced from the mineral resources of the Dominion. Practically every province has experienced important developments in this respect, and no country in the world is now attracting quite so much interest, or inviting larger investments in this field of human activity. It is everywhere apparent that Canada is entering upon a new era in mining, and one which gives promise of adding enormously to the wealth of its people and providing employment for many thousands of workmen, not alone in mining itself but in all the allied industries and businesses, including transportation, which active mining operations bring about.

The trade and commerce of Canada has continued at a high level, with the Dominion occupying a position in the front rank of nations, and with a per capita trade higher than any country except New Zealand.

In the world of finance, Canada has been blessed with cheaper money for productive purposes than any country, except the United States. Taxation has been reduced, revenues have expanded, and surpluses in Governmental administration have taken the place of former deficits. Canada's ability to pay off over \$50,000,000 of its national debt out of current income in 1927, is significant of the great change which has taken place in the last few years.

Western cities report a year of great building activity, a largely increased volume of bank clearings, growth in population, prompt payment of taxes, profitable operation of public utilities, and good business in almost every branch of commercial activity. Towns and rural municipalities present the same favorable report, an ever increasing number of the latter having liquidated their entire debt and indebtedness and otherwise decreased their liabilities and increased their assets.

Thus the old year closed with peace, contentment and prosperity prevailing throughout the Dominion, with a new confidence and courage manifesting itself throughout the Maritime Provinces, with activity general in the central eastern Provinces, and with optimism prevailing in the West, coupled with well organized efforts to steadily advance its agricultural interests and development and with entirely new opportunities on a large scale developing in the north. Canadians can and are facing the new year with pride and confidence.

Underground Railway In Tokio

The first underground railway in the Far East opened Tokio to the public. Running one and one-half miles underground, it is constructed on the pattern of the New York subway system and is said to be proof against earthquakes. It connects the railway terminus at Ueno with the Asakusa pleasure quarters.

Glasgow is soon to have its first ice rink in 10 years.

If You Need A Tonic Get The Best!

Guelph, Ont.—"There is nothing better as a building tonic than Dr. Pierce's Golden Medical Discovery. Several times when I was run down, suffered from weak stomach, thin and impoverished blood, I took it and always obtained good results. It enriched my blood, relieved me of the weak stomach, built me up in health, and made me feel like a new person. I also found it splendid to take following motherhood to give me strength. I always recommend Dr. Pierce's medicine to those whom I find ailing for I know them to be just as advertised."—Mrs. W. H. Skyring, 52 Nottingham St.

Write Dr. Pierce's Invalids Hotel in Buffalo, N. Y., for free advice.

W. N. U. 1715

Time To Advocate Peace

After every great war there is a period of almost complete safety, when the nations are too crippled and too weary to fight again. During that period—and we are living in such a period now—every rational experiment in building up a new machinery of peace ought to be tried. If the experiments fail and new generations arise not averse from war, then it will clearly be necessary for the nation to defend itself on the old terms and in the old way.

An Excellent Name

The founder of Medicine Hat is dead and a morning contemporary expresses the hope that he was not responsible for the name of the place. But is it not an excellent name for a town? The newspaper paragraphers of the world know the name of that town even if they forget the names of all others in the west. It is striking, unusual, different, and we hope Medicine Hat will always stick to its name—until its population passes the million mark.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

Betty: You only met me an hour ago, and now you want to kiss me!

Paul: Well, I'm sorry I wasted so much time!

Find Long Missing Seal

Was Originally Attached To Charter Of William the Conqueror

A seal originally attached to the charter of William the Conqueror, which always was assumed to have been lost beyond hope of recovery, has been found at the Guildhall, London.

Among an old and miscellaneous collection of articles a red bag was discovered containing pieces of wax which when pieced together with the aid of British Museum experts proved to be the centre of the long missing seal.

TO THE MOTHERS OF ALL PALE GIRLS

If Your Daughter Shows Signs Of Anaemia a Tonic Is Needed

Anaemia is simply a lack of blood. It is one of the most common and at the same time most dangerous troubles from which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls often overwork and overstudy. It is dangerous because of the stealthiness of its approach and because of its tendency to grow steadily worse. Every growing girl should occasionally take a tonic to ward off this insidious trouble. It is because of their powerful action in rebuilding the blood that Dr. Williams' Pink Pills have made a world-wide reputation. The case of Miss Claire Sullivan, Pincher Creek, Alta., amply proves the value of this medicine. Miss Sullivan says: "During my school days I suffered a great deal from thin and watery blood. I was continually weak and tired; my appetite was poor, my sleep unrefreshing and I was troubled with backaches. To make matters worse I was attacked with acute appendicitis and the operation left me in a very weakened state. My mother, learning of the value of Dr. Williams' Pink Pills, had me take them and after using them for some time I can say the result was simply wonderful, as they completely restored my health, and now when opportunity occurs I always recommend these pills to weak, pale girls suffering as I did."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Specialize On Quality

Switzerland Finds Ready Market For Cleverly Constructed Devices

Switzerland hasn't coal, copper or oil, and its iron deposits are not available. It has to go away from home for wool, cotton and foodstuffs, but it converts the raw material it buys into so many clever and ingeniously constructed devices that it never has any trouble to find ready markets. Swiss watches, embroideries, silk, carvings, music boxes, and milk chocolates are known the world over.

The Swiss have harnessed the rivers that tumble from their mountains and have cheaper electricity and make more use of it than can be boasted of their neighbors. Through all the troublous times resulting from the Great War, they kept their currency at par and sometimes at premium. Their standard of living is above the average and as good as any, and their school system is world renowned.

All of which seems to demonstrate that good sense and a peaceful disposition are worth more than wide territory and natural resources to a people.

Britisher Won Out

Had Race With American For Complete Collection Of Famous Prints

As a result of the neck-and-neck race between an American and an Englishman, neither of whose names has so far been disclosed, a complete collection of famous prints, illustrating the street cries of London, is now on exhibition at the Aclerian Galleries here for the first time in over a century.

The Englishman won by a few hours and the collection, valued at \$25,000 (about \$125,000), will remain in that country. Even the British Museum contains only thirteen of these rare prints.

Sometimes the less a woman has to complain about the more she complains.

The early bird catches the worm—if the early fisherman doesn't beat him to it.

The King of Pain—Minard's Liniment

Cuticura Preparations for All the Family

For generations Cuticura Soap and Ointment have afforded the purest, sweetest and most satisfactory method of promoting and maintaining a healthy condition of skin and scalp. Sample Each Free by Mail. Address Canadian Depot: "Hudson's Bay," Montreal. Price, Soap 25c, Ointment 50c and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

Have Overcome Handicap

St. Dunstan's Annual Report Shows Amazing Results Attained By Blinded Soldiers

Of all the various schemes that were set on foot following the close of the war to aid the wounded soldier, none perhaps attracted so much attention and sympathetic interest as that which is designed to help the blind soldier to overcome his great handicap. The reason for this interest lies in the fact that men and women are wont to consider blindness the greatest tragedy that can overtake any person in the prime of life. It is remarkable, therefore, to read of the work that has been done with blinded soldiers at St. Dunstan's, London. The twelfth annual report of this institution has just been issued. St. Dunstan's was founded by the late Sir Arthur Pearson, himself blind, to aid the soldier who has been deprived of his eyesight and is obliged to seek another vocation in acquiring another trade if his great affliction had deprived him of the skill or power to take up again his former occupation. Since its foundation 2,265 officers and men have come under the care of the organization. The pages of the report, which is entitled, "While Memory Lives," provides moving and stimulating reading concerning the manner in which these ex-service men have risen above the affliction. It seems almost incredible that men should have fought and overcome their tragic handicap in such amazing fashion.—Toronto Globe.

She: you never hear of women cashiers embezzling or running off with their employer's money.

He: Not often, but when it does happen they take the employer, too.

Wise is the man who is attentive to what is going on in his own house, but blind to what occurs in the house of his neighbor.

Children Arrested For Murder

Nine Hundred Homeless Waifs In Russia Implicated In Slaying Of Italian Vice-Consul

Nine hundred homeless children have been arrested by police in Riga in connection with the murder of the aged Italian vice-consul, Kozzlo, who was beaten to death with stones and robbed by children on a dimly lighted street, according to the Riga correspondent of the Daily Mail.

Kozzlo's body was found December 27. He had been visiting a niece the night of the killing. At the time it was believed that bandits had killed and robbed him and children were not suspected. Even the gold filling in his teeth had been extracted by the robbers.

According to the Riga correspondent of the Daily Mail, whose report is not substantiated elsewhere, boys and girls between the ages of 12 and 16 attacked Kozzlo with stones, crushed his skull and rifled his pockets of \$2,000. The police made the arrests after they had discovered Kozzlo's watch. A number of adults also have been arrested.

Excellent For Croupy Children.—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Today Canada's exports of newsprint paper rank second value among her principal exports, wheat being in first place.

Minard's Liniment for sore throat.

Regular motor car postal service in Finnish Lapland has been made possible by the use of a continuous tread tractor drive in winter time.

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

New Ford Car Makes Spectacular Run

Ford, Ont., Dec. 23. Ray Dahlinger on the last lap of a 9,000 mile trip that circled the United States passed through here to-day in a new Ford car. Twenty-one days ago he left Detroit and travelled westward to San Francisco, then on down to Los Angeles and up through the south-western states to Toledo and from there to New York City and back to Detroit via Niagara Falls and Windsor. Mr. Dahlinger has driven every mile of the way, using representatives of the Ford Motor Co. only as guides. He pointed out that the water in the radiator was the same as that placed there in San Francisco. Severe storms were encountered in New Mexico, New State and some rough going between Hamilton and Windsor, but the entire trip was unmarred by accident or repairs.

Mr. Dahlinger stated that his longest session at the wheel was 29 hours without sleep. Between

Victoria and Vancouver Mecca for Tourists

GLOWERS BLOOM ALL WINTER

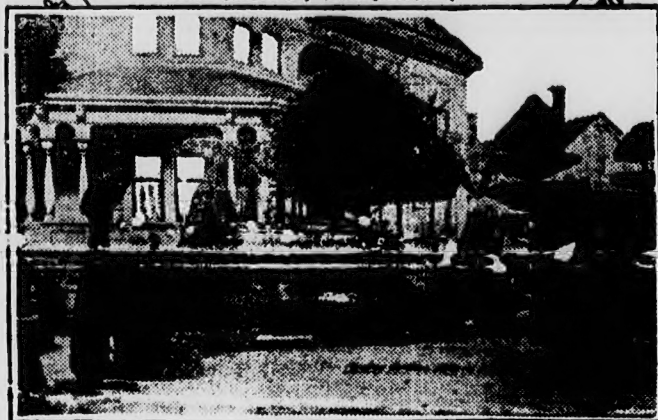

A Christmas rose plucked in the garden is no novelty in the flower vase of a Victoria or Vancouver automobile, for the climate of these two British Columbia cities is so mild during the winter that both claim eternal summer. The golfer can drive, approach the green, putt on a real grass green practically every day in the year, and hundreds of miles of splendid roads are in first class condition the year round for motoring. The mild climate is largely due to the warming influence of the Japan current and protecting range of mountains.

Victoria, capital of British Columbia, is a city of rare charm with its beautiful drives and residential sections, its first class golf courses to which access is easily obtained by the player, its unique Chinese quarter, its turbaned Hindus, its ivy-covered Empress Hotel and its imposing parliament buildings. Both the Victoria Golf Club and the Colwood Golf and Country Club have entertained thousands of guests in a single year, and golfers stopping at the Empress may play at both upon payment of a small greens' fee. Victoria is noted for its magnificent drives leading through beautiful streets, along the ocean's shores and far into the interior of the island.

Victoria is at the southern tip of Vancouver Island, named after Captain George Vancouver, of the British Navy, who discovered it in 1792. Its trees, among them the stately Douglas fir which towers 300 feet above the roads over which the traveller glides, are magnificent, some of them being 6 or 7 feet in

THE LIONS, VANCOUVER

CRYSTAL GARDENS, VICTORIA

diameter. Mountain fields and garbed of snow are constant features of the landscape, and miles of splendid roads lead the holiday motorist. Like Victoria, Vancouver has in a wonderful road, and hundreds of miles of splendid automobile roads of the finest material. Vancouver is surrounded by towering mountains and the "Lions," twin snow-capped peaks, are one of the many scenic beauties of a most enterprising, hustling and interesting city. The "Lions," also called the "Lions' Gate" and the "Two Sisters," tower 6,500 feet above Vancouver, and an Indian legend has it that as long as the "Two Sisters" stand guard over

Vancouver, just so long with Canada's greatest Pacific port thrive and develop.

Victoria is the site of the Crystal Gardens, erected several years ago by the Canadian Pacific Railway and which have become the social centre of the City. The Gardens are equipped with a magnificent 150-foot swimming pool, completely covered by a canopy of glass. Here the inhabitants of Victoria and visitors flock in thousands to enjoy the sports facilities of the institution. Dancing and other forms of entertainment are always in progress. Here, too, are staged swimming meets that within the past few years have become international in aspect.

New York and Syracuse he had to contend with a severe sleet storm that made the roads a sheet of ice. In New Mexico his greatest obstacle was a blinding snow storm and in Arizona the roads were dry and covered with sharp rocks. The car driven by this energetic pilot is a standard Tudor sedan that left the assembly line in Dearborn and started immediately on its trans-continental run on December 2nd. Ford officials stated that no special significance was attached to this run.

Owing to the numerous demands upon our columns this week, much to our regret we are compelled to withhold many interesting and impressive accounts of the different social and fraternal functions held during the week. The "Pioneer" will use its best endeavour, next week, to, in some small measure, compensate you for your loss.

Auction Sale

Under instructions from the owner, MR. F. LESER, I will sell at public auction the following livestock, harness machinery, household goods and chattels on S.W. 13-31, at 1 mile north and one-half mile west of Didsbury, at 1:30 p.m. on SATURDAY, the 14th day of JANUARY, 1928:

Team of Mares, 1 Bay Mare (9 yrs, 1200), Milk Cow (to freshen 1st, about 100 Pullets, 2 Hogs, 2 chickens (extra lines), 4 ss Cows, Wagon with Hayrack, 1st ss Wagon, McCormick Binder, John Deere Sulky, Riding Bridle, Em- 2 Lanterns, 2 2- gal. Can. Forks, 1st ss, Small Pump, Post Maul, Kant 2 Tools, 21-nch Polley, Crosscut

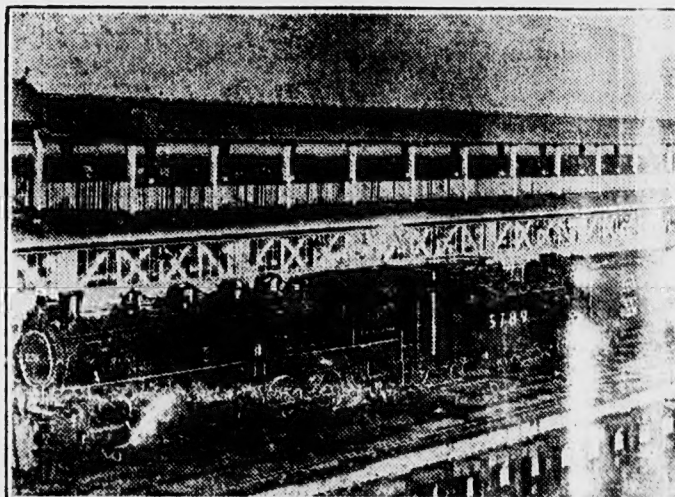

Saw, 2 30-doz. Egg Crates, Grinding Stone, 2 Beds with Mattress, 2 Bed-springs, Stretcher, 2 Heaters, Cook Stove, Chairs, Armchairs, 3 Bed Rugs, Feather Beds, Pillows, Lamps, 2 Washtubs, 10-gal. Wash Boiler, Sealers, Pails, Dishes, Pots, Pans, few Big Platters, 2 5-gal. and 2 2-gal. Crocks, Fish Boiler, spoons, Knives, Forks, other Kitchen Utensils, Linoleum, Curtains, Books, Piano, Mauser Rifle, Shotgun, A Aram Cook Scales, Accordion, Potatoes, Vegetables.

TIME—The sale starts at 1:30 in the afternoon.

TERMS—All sums of \$40 and under, cash; over that amount, eight months' credit will be given on approved joint bankable notes, bearing 8 per cent interest. Four per cent off for cash on all amounts over \$40.

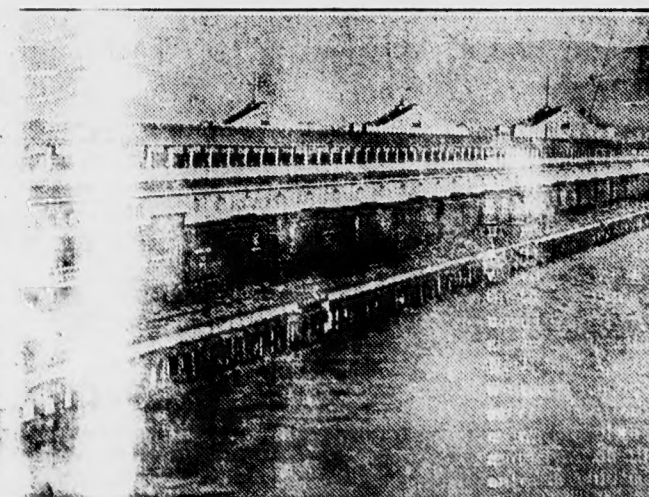

J. W. PHILLIPSON,
Auctioneer.

John F. Miller, Eye Sight Specialist, of 404 Underwood Block, Calgary, will be at the Rosebud Hotel in Didsbury, on Saturday, January 21st, for the purpose of correcting your and your children's eyes. Don't miss this opportunity.

Japanese Oranges for Canadian Christmas

Rather more than four oranges for every man, woman and child in Canada or a total of 482,000 boxes of this fragrant fruit were loaded at Pier "B-C" of the Canadian Pacific Railway at Vancouver on December 1st, and were rushed through the prairie provinces and to the coast for the Christmas trade. Photograph shows the first of these C.P.R. trains across Canada leaving the pier on its rush east. Three

trains followed it at short intervals from the pier, and in all 482,000 boxes of this fragrant fruit were used to convey this huge consignment. The oranges were so plentiful that many of the oranges you see on Christmas trees or peeping out of Christmas stockings are from the land of the Rising Sun. It is further an indication of the great trade passing through the port of Vancouver.

RED ROSE TEA "is good tea"

You must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in Aluminum.

Celebrating Canada's Jubilee

The celebration of the sixtieth anniversary of Confederation should be well and fittingly observed by all citizens throughout the length and breadth of the Dominion, and no community however small should fail to take advantage of this historic date to review the progress of the country and to strengthen in the minds of all, especially the young, a determination to render worth-while service to Canada and make it a still better land in which to live and a real power for good among the nations of the world.

A strong national committee has been created by Parliament to give direction to this celebration in its large national aspects, and Provincial committees are in process of formation in each of the nine provinces. The chief national ceremonies will, of course, be held at Ottawa, the Federal capital, and it is proposed that in each of the provinces striking ceremonies should be held at the provincial capital cities. But every city, town, village and hamlet should likewise organize to commemorate the event.

While in the observance of this diamond jubilee, sports, concerts, fireworks, and other forms of recreation and pleasure will and should find a place, it is to be hoped that something of a more lasting character will be done or inaugurated that will materially assist in the continued and greater development of Canada and advancing it along the path to true national greatness and strength.

The Dominion-wide oratory contest now in progress in the schools of the Dominion under the auspices of leading daily newspapers is a concrete example of what we have in mind. It is educational, inspirational, and cannot fail to induce a true pride in Canada and its achievements, and help to promote a fine and helpful national spirit. The study which participation in this contest imposes on thousands of students will leave a lasting impression, while the training in public speaking that results will prove a real asset to the Dominion.

A suggestion has also been advanced that the national committee should create a national prize in literature to be awarded each year to the best Canadian literary production of the year. Such award might fittingly be announced on each succeeding Dominion Day. A really worth-while prize would undoubtedly have the effect of encouraging a higher standard in Canadian literature.

Cannot the idea which prompted this suggestion be extended to include each community throughout the Dominion? Most of our cities, towns and villages experience a lack of something of a public nature which could easily be provided at comparatively small expense if the residents would unite their efforts in making provision for it. Some lack a community centre; in others the absence of a public library is a real loss to the people; some places have as yet failed to make adequate provision, possibly no provision at all, in the shape of parks or playgrounds; many have neglected to plant trees or create beauty spots to improve the appearance of the community in which they pass their lives.

What could be better prove a more fitting observance of Canada's jubilee than the creation of a Confederation Park, a Jubilee Library, a Canada Community Hall, or a Confederation Avenue of trees, or something of beauty or of public service along somewhat similar lines?

The above suggestions are merely intended to direct attention to the idea and to provoke consideration of it. Each community will be aware of its most pressing need, and of its ability to supply that need. Each community, no matter how small in numbers, can do something. All that is necessary is that some thought and consideration be given to the matter, and one or two "live" leaders can quickly secure the co-operation of all, with the result that something really valuable and of lasting benefit will result in commemoration of the Diamond Jubilee of Confederation.

Gorgeous Car For Nigerian Chief

British Factory Turns Out Dazzling Vehicle for Emir of Kano

Rich native potentates who have luxurious tastes in automobiles, invariably place their orders in England. A car that has just been completed for the Emir of Kano, one of the most powerful of the Nigerian chiefs, had, according to instructions, to look like a bird of paradise, when travelling under the blue African sky. The use of black on any part of the car was forbidden on religious grounds. All difficulties were, how-

ever, overcome, and rarely has anything more gorgeous left a British factory than this dazzling vehicle. The chassis is a 6-cylinder with all parts brightly finished. The dashboard is of polished aluminum. The steering wheel and the door handles are blue. The springs are painted red and the fuse carrier on the dashboard is of ivory. The body is striped with red and gold lines. The hood is more like a sunshade and is a vivid green in color, and the interior is upholstered in blue leather. Even the engine, normally black, has been camouflaged with silver paint. In the dazzling sunshine of Africa the car travelling at high speed—and it is understood the Emir of Kano delights in speed—will certainly give some impression of a gay bird of many hues.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, adds the assimilation of Food; giving natural sleep without opiates.

The genuine bears signature of

Chas. H. Fletcher.

W. N. H. 1874

T.B. Taking Heavy Toll

Deaths Among Greenland Eskimos Due to Unsanitary Conditions

The devastating influences of tuberculosis are taking a very heavy toll of Greenland Eskimos. H. C. Raven of the department of comparative anatomy of the American Museum of Natural History, told the Royal Canadian Institute in Toronto.

The prevalence of tuberculosis in Greenland, where Mr. Raven spent the summer of 1926, was attributed by him to the fact that the Eskimo lived in very unsanitary surroundings, as many as 12 people being crowded into one little igloo four feet wide by ten or twelve feet high.

Going fishing—take Minard's Liniment.

Vitaglass Is Newest Idea

Does Not Exclude Ultra-Violet Rays Like Window Glass

Scientists have discovered at a date if somewhat belated, that glass windows, from the standpoint of health, are one of the greatest evils from which humanity suffers. They do act as a preventive to cold winds, draughts and damp, but they only give the illusion of light and warmth. The Medical Research Council corroborates the fact that when light passes through a window of ordinary glass it is entirely robbed of the beneficial ultra-violet rays. It gives a sensation of warmth, but, apart from this, it can have no effect on bodily efficiency and well-being.

The remedy exists, however, for both light and the ultra-violet rays are provided by vitaglass, the invention of a Birmingham scientist, Mr. E. E. Lamplough. It has been installed in several hospitals in Great Britain and in the Smithwick Borough Council Schools. The installation, it is claimed, has had remarkable results on the health of the pupils.

The Morning Post says that vitaglass possesses the property of transparency to the curative ultra-violet rays of natural light. We quote:

"Up till quite recently it had been found that quartz or fused silica were the only known substances that possessed this property of transparency, and their high cost had rendered the possibility of their application to windows quite prohibitive. The cost of vitaglass is, however, very little more than ordinary window glass, and so the question of its installation in factories and industrial centres becomes of considerable interest."

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the Spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring, anaemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body, bringing new strength and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Chinese Women Progressive

Are Becoming a Factor in Readjustment of Their Country

The women of China will be a factor in the readjustment in that country, according to Mrs. Grace Thompson Seton who spoke before the Women's Press Club in New York. Describing the achievements of modern Chinese women, Mrs. Seton said one woman author had published 349 books. Another who conducts a school, she said, had adopted 160 children and is educating them. From a state of complete subjection to men women are fast emerging, she said, and banks for women are being established.

For distemper—Minard's Liniment.

Heroine: Oh, George, can't you wait just a week for my decision? Voice from the Gods: Don't you do it, George. The play won't run that long. Gaiety.

A weighing machine designed for use in shops is so finely constructed that it will weigh anything from a human air to an article of 40 pounds.

The Farm Power

for ignition must be as dependable as that of the great metropolis power plants.

Ignition troubles during wood-cutting, threshing, ensilage chopping, separating, pumping or plowing may cost more than many sets of batteries.

Take no chances. Positively insist on seeing the name Eveready-Columbia on every dry cell battery you buy. It ensures you of an even and certain supply of power when you most need it.

Your dealer will show you a complete range of Eveready-Columbias covering every possible need.

—they last longer

A Model of Cleanliness

If the housewife could visit a modern milk condensary, where pure country milk is put in tins for her convenience, she would be as delighted with its cleanliness as she would be amazed at the ingenuity of the process. In Borden condensaries, where Eagle Brand or St. Charles Milk is packed, the entire plant is subjected to a rigid cleansing every day. Every container and every piece of piping through which the milk passes is sealed with live steam. St. Charles milk, which is evaporated, has nothing added to it, and nothing taken away, except a portion of the natural moisture of the country milk. After being tinned it is sterilized, so it will keep perfectly in the unopened tin. Eagle Brand, which is condensed milk, is preserved by the addition of pure cane sugar, but nothing else is added to the fresh country milk. The condensed milk is called "sweetened" and the evaporated "unsweetened" milk.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

Proposed New Paper Mill

New York, Montreal and Chicago financial men are reported to be combined in the plan to construct a 600-ton paper mill at Whitemud Falls, Manitoba, for which application has been made to the Federal Government. Timber limits involving 11,500 cords of pulpwood are being sought.

Telephone System Pays

Alberta Government Phone System Shows Operating Profit

The Alberta Government telephone system showed a profit of \$270,000 in operation in the year 1926, according to the annual report of the Department. There was an increase of revenue over 1925 of more than \$154,000. There are now 29,413 rural subscribers and 36,517 subscribers on the urban system, making a total of 56,930 subscribers for the entire system, an increase of about 500 over the previous year.

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the innermost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

A Real Cinderella. The story of Cinderella has been traced by an historian to the account of a young lady named Rhodops whose sandal was carried by the wind, while she was bathing in the Nile, to the feet of the Egyptian king who offered a reward for the owner. When Rhodops claimed her sandal the king married her.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Manufacturing industrial development is in its infancy in Bolivia, which is almost solely a producer of minerals. A disadvantage is the almost complete absence of fuel in the country.

Genuine
ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acid ester of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BRITAIN WOULD FURTHER PLAN TO OUTLAW WAR

London.—The British Foreign Office has intimated that it would give most favorable attention to any proposals for outlawing war. At the same time reports appearing in the London papers that the United States' proposed treaty to that end has been forwarded to the British Government are without confirmation. Officials remarked that it would be difficult to comment on a treaty which has been so variously reported in the press.

The Nicaraguan situation receives much more space in the London evening papers than the proposed treaty.

"While the United States is inviting France to join in proposing to the world a treaty renouncing war as a national policy," says The Evening Standard, "she is involved in a campaign in Nicaragua."

The Standard explains this contrast between precept and practice has been brought about by General Sandino, the rebel leader.

The Star heads the Nicaraguan situation: "An Unpopular War."

The Evening News devotes nearly a column to the Nicaraguan situation as against an inch paragraph to the proposed treaty.

Commenting editorially, The Westminster Gazette calls Secretary Kellogg's proposal to France for a multi-lateral treaty "a shrewd stroke." It is unable to see, however, how this would advance the cause of pacific settlement of international disputes.

Mountain Climber Lost

Los Angeles Man Was Attempting To Scale Mount Whitney

Lone Pine, Calif.—The wind swirled snows from the peak of Mount Whitney, highest in the country, smothered out the tracks of Robert A. Evans, of Los Angeles, mountain climber missing since he set out to scale the highest of the Sierras.

A pre-arranged plan of reporting his progress by means of signal flares failed.

Signals flashed from the warm slopes here at the Eastern foot of the mountain brought no reply.

He had planned to be on the summit to hail the New Year. He had four days' food supply.

Would Stage Bull Fight

Spanish Matador Anxious To Show Britain What Sport Is Like

London.—Antonio Marquez, famous Spanish matador who is spending his honeymoon in London, wants to stage a "painless bull fight" here.

The Spanish matador, who hopes to demonstrate to the English public that bull fighting is not cruel, is negotiating with a famous amusement promoter to stage the fight in London in order to exhibit the matador's supreme speed, agility and daring to the sport-loving British.

Miner Killed In Snowslide

Body Of Kootenay Man Covered By Tons Of Snow

Nelson.—Semen Wetterhaus, 45, pioneer mining man of the Kootenay district, was killed in a snowslide at the Mammoth mine, near Silverton.

The body probably will not be recovered before spring as tons of snow covers it.

Wetterhaus, who was foreman and part owner of the Mammoth mine, served in the World War with the 225th Kootenay Battalion.

Premier Must Take Rest

Winnipeg.—Premier Bracken, of Manitoba, who suffered a slight attack of appendicitis a few days ago, has been ordered by his physicians to take a complete rest from his official duties. The premier's condition, the doctors state, had not shown the improvement they had expected.

A Family Affair

Alliance, Neb.—After his four daughters had married four brothers, Charles W. Sisley, 70, was married here to Mrs. Sarah E. Colerick, 59, mother of the quartet of brothers.

W. N. U. 1715

Curb Money Lenders

Cannot Solicit Customers In Britain Through the Mail

London.—The Money Lenders' Act, which became effective January 1, forbids money lenders from soliciting customers through the mail, but they are still permitted to advertise in newspapers. The end of 1927 witnessed a grand effort by the money lending fraternity to get circulars out through the mail before the new law came into force, and they were plaintive in their appeals to the recipients of the circulars to "keep for reference," with the suggestion to do so in view of "eventualities which may arise in your personal financial commitments."

Deprived of the use of the mail, many money lenders are now attempting to widen their publicity in the newspaper field. With a few striking exceptions, however, prominent newspapers all along have refused to insert such advertisements and they declare they will rigidly maintain this attitude.

Flin Flon Development

Hudson Bay Mining and Smelting Company To Commence Operations

Winnipeg.—Preparations are actively under way for the commencement of real work on the projected development of the Flin Flon mine. Plans for the mill and smelter are being prepared and also for the townsite which will be situated on Ross Lake, about two miles away from the plant.

The Hudson Bay Mining and Smelting Company is the name chosen for the company which will operate the mine.

The company will, it is learned, in all probability operate under a Dominion charter, but there are several details yet to be settled. R. E. Phelan, general manager of the company, who has been in San Francisco for some time past, is expected to arrive in Winnipeg this month and will establish his headquarters here.

Propose "No War" Treaty

Negotiations Between France and U.S. Is First Step

Washington.—France has been asked by the State Department to share with the United States a mission to unite all principal nations in "renouncing war as an instrument of national policy."

The proposals for joint leadership, springing from the suggestion of Foreign Minister Briand for a Franco-American treaty outlawing war, is put forward by Secretary Kellogg as offering opportunity for a "more significant contribution to world peace by joining in an effort to obtain the abhorrence of all the principal powers of the world" in a renunciation of war.

Reimbursed His Clients

One Who Lost By His Advice Remembered In Lawyer's Will

San Francisco, Calif.—The legal profession found in the will of the late Gavin McNab, noted California lawyer, a precedent and a heritage. He left money to reimburse clients who lost by his advice.

The will, filed in the probate court here, disposes of an estate valued at between \$600,000 and \$800,000 earned in fees since McNab left his place as a hotel clerk and decided to study law.

Of this amount \$10,000 was returned to two clients who paid McNab for advice as to investments upon which they lost.

Another Gold Shipment

Canada Has Sent A Further \$3,000,000 To United States

New York.—The gold movement from Canada back to New York, which amounted to \$5,500,000 in December owing to the discount on the Canadian dollar in the New York foreign exchange market, has been increased to \$10,500,000 with another shipment of \$5,000,000, consigned to the Canadian Bank of Commerce in New York.

The net loss of gold to the United States during 1927 is placed at \$151,000,000 by the Federal Reserve Bank of New York in its monthly review of credit and business conditions.

CONSERVATIVE LEADER

Col. R. B. Bennett, Conservative Leader, photographed on his return to Canada from his recent visit to England.

Canada Makes Own Program

Will Not Hurry Construction Of Two New Destroyers

Ottawa.—It was stated at the Department of National Defence that it is the intention to have the two new destroyers for Canada built successively and not both at the same time, allowing a certain period for receiving tenders.

The construction of the two boats will take about three years.

This statement was made in answer to some comments by the London paper, Truth, which, among other things, applied to the length of time to which construction of the vessels will take. By constructing the vessels one after the other the financial obligation will be spread over a period of three years.

"We make our own programme," was the comment at the department on the criticisms of the London paper, when read to one of the officials. It was pointed out that the London paper is in error in saying that the Patriot and Patrician are cruisers. They are destroyers and will be simply replaced by other destroyers of a more modern type.

Rich Platinum Area Found

London.—The Colonial Office announces the discovery of a platinum-bearing area of about 40 square miles in Sierra Leone, British West Africa. The deposits are alluvial and are considered important.

Children Rescued

Wilhelmshaven, Germany.—Seven children adrift on an ice floe, were rescued by a naval vessel after being lost four hours.

Governor General Inspects Namesake

His Excellency Lord Willingdon, hearing that an internationally-famous Clydesdale stallion "Lord Willingdon" was a feature of the stallions being shown recently at the Ottawa Winter Fair, took the opportunity of inspecting his namesake. His Excellency is shown in the above photograph standing at the left beside the champion. At the right is W. J. McCallum, of Brampton, Ontario, and Regina, Sask., who purchased the stallion in Scotland last year at a price exceeding \$10,000, and brought him to Canada in October.

This two-year-old stallion has made

Bandits Make Haul

Armed Robbers Secure \$3,500 From Storekeeper At Beaubier

Weyburn.—Armed American bandits made a sortie on the hamlet of Beaubier, and secured some \$3,500 from John Kenna, storekeeper. Kenna was called from his bed by two men who declared that they were in urgent need of medicine and he accompanied them to his store, where they produced revolvers, and compelled the man to open the safe which contained money belonging to the Saskatchewan Pool Elevator Company, the International Elevator Company, the Post Office department and Kenna himself. After raking every nickle out of the strong box, the bandits bound Kenna hand and foot and gagged him before they made their getaway.

Beaubier is a new town on the Lake Alma branch of the C.P.R. and remote from communication with police and other centres. The town is located between Lake Alma and Ratcliffe, fifty-five miles south of Weyburn, 35 miles southeast of Radville, fifty miles due west of Estevan, all distances as the crow flies. It is ten miles north of the international boundary and twenty-two miles north of Westby, Mont., a notorious hangout for yeggs and gunmen.

Beaubier is also 20 miles from Bromhead, Sask., a former detachment of the Saskatchewan Provincial Police that was ordered closed last spring, when the force was reduced.

Women and the Senate

Stated That Matter Will Come Before Supreme Court Of Canada

Toronto.—According to word received here, Hon. N. W. Rowell, K.C., Toronto, at the request of the petitioners, had been appointed by the Department of Justice, at Ottawa, to argue before the Supreme Court of Canada the eligibility of women for appointment to the senate of the Dominion. The question hinges on whether a woman is a "person" within the meaning of the British North America Act.

Judge Emily Murphy, one of the petitioners, has left Toronto for her home in Edmonton. Her co-petitioners are Hon. Irene Parley, member of the Alberta cabinet, and Miss Henrietta Edwards, of McLeod, Alta., Mrs. Nellie L. McClung, and Mrs. Louise McKinney, former members of the Alberta legislature.

Sight Icebergs Below Equator

Montevideo, Uruguay.—Although it is summer below the equator, the German steamer, Atto, sighted three icebergs near the mouth of the Rio De La Plata, the ship reported by radio. Experts attribute the unseasonable cold weather in that region to the presence of these and other ice formations which have been sighted.

MODIFICATIONS IN NEW LIQUOR BILL FOR MANITOBA

Winnipeg.—A number of modifications in the Manitoba Government's draft bill on liquor legislation were announced by Hon. W. J. Major, attorney-general. The proposed changes will eliminate certain objectionable clauses which raised a storm of criticism when the draft bill was announced.

Permission is to be given brewers to deliver beer direct to permit holders, but to ensure full compliance with the existing laws, authorized inspectors will be assigned to every brewery operating in the province who will supervise all orders received.

The government also has decided to waive the regulation which provides for the production of permits at the time an order is placed.

The bar against brewery encumbered hotels is also to be removed. Modification of this clause of the bill will enable hotels in which brewers are financially interested to operate beer parlors.

The original draft of the bill prohibits establishment of beer parlors in such hotels. A proviso, however, is contained in the amendment clause which stipulates that brewers who have an interest in an hotel cannot dictate as to the firm from which the supply of beer or liquor is to be purchased.

Other modifications provide for reduction in the number of rooms in an hotel operated as a beer parlor. The number is reduced from 40 to 24. The gallonage tax on beer is to be fixed at 12½ cents a gallon. Licenses to veterans clubs also are to be increased and minor changes proposed in the law enforcement clauses.

The modified bill will be presented to the law amendments committee of the legislature at the next meeting.

Pardon Was Impossible

Former Cossack Officer Must Suffer For His Crimes

Krasnoyarsk, Siberia.—Vassili Abalakoff, a former Cossack officer, was condemned to death after a trial in which many witnesses told of the defendant's terrible cruelties to which more than 400 deaths during the civil war of 1919 were attributed.

Eye witnesses described the burial alive of some persons and the hacking to pieces of others. They recounted how his victims were thrown under the ice and numerous deaths from whippings.

In pronouncing sentence, the court held that amnesty for the former officer was impossible.

Exchange Political Prisoners

Ten Released To Poland Condemned To Death By Soviets

Warsaw.—Soviet Russia and Poland exchanged 38 political prisoners held under various charges. Among those released by the Soviets were ten who had been sentenced to death.

Poland delivered nine persons, among them a noted spy named Illinicz. Soviets returned 29 prisoners, among them two priests and six women.

At the same time the two countries exchanged a protocol which guaranteed the return to Poland of two more priests held prisoners.

Rescues Crew Of Air Mail Plane

London.—The captain of the British steamer, British Knight, has notified his London owners that he picked up the French mail airplane, N-R-54, or the Latecoere line, and rescued the crew, 58 miles east of Cape Decata. The plane and crew will be landed at Gibraltar.

Recover Bodies From Submarine

Provincetown, Mass.—The bodies of three members of the crew of the S-4 was recovered by divers who entered the sunken submarine. All of the bodies were found in the engine room of the submarine. They were fully clothed and appeared to have met death by drowning.

Three fifths of the automobiles in Porto Rico are in six cities having one-fifth of the population of the island.

Guard Your Speech

An editorial appearing in the current issue of the "Canadian Silver Fox News" may be worthy of your consideration. In part it goes as follows: "An interesting verse that seems to be particularly appropriate at this season of the year, when we are all trying to live like we expect the other fellow to do, always is as follows:

If you are tempted to reveal
A tale someone to you has told
About another, make it pass
Before you speak, three gates of gold—

Is last and narrowest, Is it kind?
And if to reach your lips at last
Three narrow gates. First, is it true?

Then, is it needful? In your mind
Give truthful answer, and the next
It passes through these gateways three,

Then you may tell, nor ever fear
What the result of speech may be.

The enemies that come out in the open and fight us openly, can always be overcome if we are better than they. The general enemy of society, from the shoplifter to the murderer, even if never apprehended, must live with his own conscience. But the friends who delight in idle, harmful, unfounded gossip, who rip your poor

Church Announcements

Evangelical Notes

Election of S.S. officers for 1928 took place at Didsbury and Westcott last Sunday, with very satisfactory results at both places.

The Intermediate League of C.E. also, had an election at their last meeting on Wednesday, a week ago. These boys and girls, as a whole, are doing some really good work in religious education, by way of public speaking, prayer, etc. Many signs of growing interest in the religious side of life are in evidence.

We are glad to announce the promise of Rev. W. W. Krueger, P.E., Regina, Superintendent of Missions, to assist us two weeks in a series of special meetings beginning on, or about February 5th.

Knox & Westcott

Knox at 7.30 p.m.

Subject: "Is the Church making good to-day?" No service will be held at Westcott, Jan. 15th. An attempt will be made to hold service at Lone Pine Hall at 3 p.m. S.S. at 2 p.m., January 15th.

ST. CYPRIAN'S (Church of England)

Priest-in-charge, Rev. H. Clay,
Box 157, Olds.

First Sunday in the month—Afternoon at 3.00 p.m.

Third Sunday in month—Morning at 11.00 a.m.

School is held every Sunday.

EVANGELISTIC MEETINGS

At the M.B.C. Church beginning Sunday, January 1st, 1927. Rev. J. C. McGovern from Calgary will be the evangelist.

Come and hear this man expound the Word of God. All are invited. Service begins at 8 o'clock.

C. J. Hallman,
Pastor

reputation to shreds on the slightest provocation or sometimes for no reason at all, and then greet you with a sunny morning smile... may we be protected from them!

A committee of the Alberta Wheat Pool Board of Directors, reporting on the suggestion of changing the method of handling grain from the bushel to the pound basis, expresses the opinion that the difficulties in the way are not insurmountable.
